**From:** EDCustomer Customer [[EDCustomer@novell.com](mailto:EDCustomer@novell.com)]**Sent:** Friday, May 28, 2010 9:03 AM**To:** Zinzel, Zip**Subject:** RE: My old CNE 5 certification isn't on the cert website to publish

I double checked your account, and it is showing that you had achieved the CNE 5 under the Legacy certifications on the Certification Progress page. It is showing as expired however. If a potential employer were to call or email us to verify your information, we will be able to confirm that you have a legacy certification. We will not volunteer information to the individual, but we are able to confirm information they provide to us.

I hope that this is helpful. If you have any trouble finding the Legacy certifications from the Certification Progress page, please let me know!

Thank you

Holly

Holly:

Thank you so much for your reply. I know that you guys are probably operating under a much slimmer operating budget than back in the 'glory' days of Novell.

I just have one additional question, below you said: "You are welcome to log into our training database and view your certification information yourself."

However, when I login the training database the only certification I see is the 'Legacy' CNA certification in Netware 5. If you look at my "HISTORY" you'll see 23 exams passed. (SEE ATTACHED)

The legacy CNA exam that you are listing would have been achieved on the very first exam (050-639) Netware-5-Administration.

To earn the Netware 5 CNE you needed to pass the six following exams:

(050-639) NetWare 5 Administration

(050-640) NetWare 5 Advanced Admin  
(050-634) NDS Design & Implementation  
(050-635) Service & Support  
(050-632) Net Tech  
ELECTIVE CHOICE  
(050-644) NetWare: Integrating Windows NT

At the time of these exams I was teaching Novell Certification classes with a Novell Partner, Wave Technologies, Inc. I took each of the exams twice on the regular basis and twice at the Certified-Novell-Instructor (CNI) level; except for the Networking Technologies Exam which I only took once at the CNI level.

++++++

You said that I could have people call you to verify my CNE - 5, but I find that doubtful since it doesn't show up now. And my expectation is that you wouldn't provide anybody else with additional information beyond what is currently showing up.

Thank you so much for your assistance.

Sincerely,

Zip G. Zinzel [zzinzel@yahoo.com](mailto:zzinzel@yahoo.com)<mailto:zzinzel@yahoo.com>

Subject: RE: My old CNE 5 certification isn't on the cert website to publish

Sir-

Thank you for contacting Novell Training Services. Rosemary is out of the office today, so I will help you with this request. To answer your question regarding your CNE 5, I'm afraid that certification is considered to be a "Legacy" certification. Once the general life cycle of a certification ends and it is considered to be Legacy, all of the benefits are discontinued. These benefits include access to the community forums, ability to publish your support credentials, replacement certificates, etc. You are welcome to log into our training database and view your certification information yourself. If you need verification of your certificate for potential employment, etc, you are welcome to have your potential employer call us at 1-800-233-3382 option 1 or email us at [edcustomer@novell.com](mailto:edcustomer@novell.com) for that verification. They must have your name and the certificate that they are verifying, and then we can confirm that you have achieved it.

I hope that this helps to answer your question. If you have any additional questions, please let me know.

Thank you

Holly

Isn't there any way to document my CNE for Netware 5. If you look at my history, I clearly earned the CNE, I also earned it via the CNE examinations

Sincerely,

Zip Zinzel - 9684959

Mr. Ziinzel: Sorry to report that the older Legacy program certificate and wallet card (CNE 5) are no longer available for replacement.

**CERTIFIED NOVELL ENGINEER™**  
**Novell.**

**Certified Novell Instructor (CNI)**

The Certified Novell Instructor is the world's most renowned technical instructor certification. CNI program requirements have recently been revised to include an emphasis on Linux instruction.

**Program Requirements**

To ensure that Novell official curriculum is taught by the best technical trainers in the industry, Novell Training Services has set the following requirements for participating as a CNI:

- Technical requirement (complete one of the following): Novell CNE 6, Novell CLP (9 or 10).
- Novell Training Services Certification Agreement: If you missed signing the agreement when you took your certification exam, you may sign online.
- Didactical requirement (complete one of the following): CTT+, CCSI, CCI, HPCT, MCT or Novell Instructor Performance Evaluation (IPE); Please fax a copy of the non-Novell certificates listed above to 801.861.3900, Attn: CNI requirements or send it as a scanned image to [eddata@novell.com](mailto:eddata@novell.com)
- CNI Application: Enter the Certification Database. In order to sign the CNI agreement you must first complete one of the technical requirements listed above.

Roughly half of the Novell Certification exams I took were “CNI” versions. If you are a CNI you must take the CNI exams not the normal ones. I was a professional Novell CNE instructor; but not a CNI. The company I taught for was Wave Technologies, Inc. which was started by a former VP from Novell who was the one who originally came up with the Certified Novell Engineer (CNE) program as a corporate strategy to compete against IBM, DEC, and the big mainframe companies at the time. The materials we used in our training programs were jointly developed by Wave Technologies & Novell.

The CNI exams came in 2 flavors, and they were delivered at about 50 / 50. One type of CNI exam had more questions and a greater degree of difficulty. The other type of CNI exam was exactly the same as the standard CNE exam, except that the cutoff score for passing was significantly higher for CNIs

You didn't need to be a CNI to take these exams, anyone could, and my company encouraged us to take them.
